

BYRON & BYRON

HAND CRAFTED CURTAIN POLES

We are delighted to welcome you into the world of Byron & Byron.

This brochure is taking us back to our roots in many ways and bringing all of the collections and products together in one single book. Over the years we have listened to your feedback. We hope that by having all of what we offer catalogued together it will make our products easier to understand and offer to your customers.

Operating in a niche market in the interiors sector we have created a collection of curtain poles and accessories that is second to none in terms of design, finish and functionality. We are proud to be a British manufacturer and our ethos remains clear, that we will continue to produce the finished product on home soil. All of our products are designed here in London and the products are finished here, by hand by our own skilled team.

We are aware of our social and environmental duties and are conscious of the mileage that our raw materials travel to get to us. Most of what we supply is sourced from within the EU, aside from components that cannot be bought locally.

Our carbon footprint is rendered smaller still by producing 50% of our own electricity by means of solar panels installed on our factory roof. In the winter months our factory is heated by recycling our own wood shavings or by using biomass fuels. This reduces further our consumption of the Earth's resources. We are also working towards all timber being FSC Certified.

Rest assured that here at Byron & Byron we are very aware that the planet is on loan to us for future generations. Whilst we produce products that come from natural sources, we ensure they are fully sustainable. We do our utmost to ensure we protect the environment and the world in which we live.

We hope that you enjoy looking through our array of products and are equally excited as we are about the new products and happy to see some of the Byron & Byron classics on offer. Alongside the exciting **NEW electric powered tracks that can be inserted in to our curtain poles** – a bespoke service that we launch from September 2018.

Thank you for your continued support and much valued custom.

WHO WE ARE

Byron & Byron create and supply a variety of hand-crafted and traditionally finished curtain poles and accessories and was created in 1984 to supply a demand of the rapidly growing interior design sector of 1980's Britain.

The company was founded by a then, young Italian Orazio Gualtieri, his passion for traditional craftsmanship and design pushed Byron & Byron to stand out against the crowd. The decade of energy and opportunity in 1980's London allowed the youthful entrepreneur to marry his knowledge of design and traditional wood finishing techniques to produce a small range of classically decorative curtain poles and accessories.

Our ideology of Byron & Byron has been fundamental from the start; to have control over the whole process of the design. From conception, to prototypes, to the final manufacturing of each component. The luxury of having an on-site workshop allowed Orazio to be experimental and creative with finishes, responding quickly to growing trends and fast paced changes in colour and design.

The ability to immediately tackle problems and develop innovative ideas over the years is unique to Byron & Byron. The cutting edge design of our wooden bay poles and decorative polnets are prime examples of this and we strive to lead the market with our attention to detail and continued focus on the design.

WHAT WE DO

Over 30 years later and Byron & Byron are still producing curtain poles, finials and accessories. With growing demand, production has become increasingly sophisticated but the focus still has a high reliance on the skill and attention of a talented team of gilders and craftsmen. With successful designs now the product of experience and expertise, we have grown from a small Islington workshop to a production plant in North London. However, our core values remain unchanged, a passion for the product, a love of flamboyance and a determination to provide elegant and fitting solutions for both traditional and modern window treatments.

We are proud to be a British manufacturer and whilst timber is sourced from outside the U.K., the process of creating the product from concept to crafting the final piece is all done on home soil.

In this brochure, we wanted to celebrate our wonderful and valued clients. With lifestyle shots through-out this catalogue having been kindly provided by a small selection of talented designers and makers that we supply. The details of all designers who contributed can be found at the back of this brochure.

We would like to say a huge thank you to all our customers for their continued loyalty, support and shared passion for our industry.

BarnWood®
By Byron & Byron

Behind the brand...you are in safe hands!

Orazio Gualtieri
CEO

With over 35 years experience in design and manufacture, Orazio retains the passion for producing products from wood. His love for working with timber has led him to create and continue to create innovative and beautiful pieces. The love of his creations is the magic behind every item that we design. An innovative and visionary thinker; he pushes Byron & Byron on its continued mission to produce the most beautiful products for the home, with a firm focus on functionally and technical solutions.

Lorena Diomidous
Director

Lorena joined the business in 1999 stemming from a Business & Marketing background. She became a Director in 2009. Together with Orazio they run the day to day operation, which continues to go from strength to strength. Lorena brings a commercial eye and a passion for exceptional service and dealing with people. With a flair for creativity, allowing for continued development and growth in the top end retail sector and the core bespoke market in the UK & globally.

Additional Services

Cording and tracking

We can supply any of our 45mm/55mm poles tracked and corded. Please see the cording template in the price-list. Select your choice of pulley direction and send to the sales office along with your order or quotation request

Decoupage

We can cover our poles with the client's own fabric or wall paper. Please contact sales for information and we will advise.

Bay-poles 'Metamorph'

Our bay poles are carefully engineered to follow the unique form of your bay window. Available in 45mm/55mm diameters.

Nylon Strip

A nylon strip is an additional service that is fitted to the top of the pole to help your rings to glide smoothly when pulled. We recommend a nylon strip especially if your curtains are heavy or lined and interlined or if the client would prefer a quieter closure of the curtains.

Styling

The Austell finial. Styled by Applemoon Interiors in Chichester

Approximate Lead Time

From 1 week 1- 2 Weeks 2-3 Weeks 3 + weeks

The Ives finial in Barnwood Grey. Styled by Pippa Blacker Interiors, based in Hampshire.

Email: sales@byronandbyron.com Tel: 020 8344 7979

Barnwood Bespoke *Painted for you*

Our classic Barnwood range is now available in a bespoke finish.

Choose any Dulux, Little Greene, Farrow & Ball or Sanderson colour and we will supply and paint it, just for you!

Please contact the sales office with your choice of colour and finish code for more information.

Approximate Lead Time

From 1 week 1- 2 Weeks 2-3 Weeks 3 + weeks

RUSTICA

A stunning collection of rustic wooden poles, in a palette of oak finishes. Inspired by English country cottages.

The traditional detailing of the poles emphasises the warm and elegant tones of the finishes, accentuating the natural grooves of the wood.

English oak is crafted from a solid oak timber with Limed Oak, Burnt Oak, Toasted Oak and Smoked Oak created using ash timber with a contemporary oak finish.

AQUA

Historically known as 'Cornice Boards', these window treatments were first designed to frame the window, disguising fixtures. Our decorative pelmets have been created not only for function, but for style too. Available in a range of styles and hand finished, this collection boasts both contemporary and classic designs.

POLMETS

DECORATIVE TRACKS

Designed to get noticed a new breed of window treatments that are a cross between your typical curtain poles and pelmets. Available in larger sizes with an enhanced gliding system, they allow to hang heavy curtains.

Baroque by Cher Simpson Watt designer

One of the main challenges of contemporary homes is that little or no wall space is allowed between the top of the window and the ceiling. Where a limited amount of space has been afforded, a pelmet can offer the perfect solution, allowing for a range of window treatments, both modern and traditional.

AWARD WINNING DESIGN

BAROQUE

DECORATIVE TRACKS

Baroque, beautifully presented by Emmie B Interiors based in Cheshire

The Baroque Polmet offers an ornamented detail, in a narrow selection of quite opulent finishes, on a tracking system that can accommodate panels, blinds, sheers, wave headed or even more traditional pencil pleat curtains. Being, fundamentally, a tracking system, the polmet can fit into smaller wall-spaces between window and ceiling which are so often the feature of the new build interior.

MILO

DECORATIVE TRACKS

Fabric supplied by Candola. Trimmings supplied by Wendy Cushing Passementerie.

Inspired by the Doric style of architecture from ancient Greece, the Milo Polmet, like the Baroque Polmet, offers an familiar, traditional, fluted profile in a narrow selection of quite opulent finishes, to a tracking system. This can be used to hang traditional pencil pleat curtains or blinds, panels or curtains with more contemporary headings.

Email: sales@byronandbyron.com Tel: 020 8344 7979

DECO

DECORATIVE TRACKS

Wallpaper supplied by Osborne & Little plc. Fabric supplied by Laura Ashley.

The vintage vibe has passed from clothes to interiors and mirrored furniture, which has been chic since the 30s, is the height of fashion once more. The Deco Collection of polmets comes in a silver, fumé or bronze bevelled mirror finish or in an anthracite bevelled glass finish, and is offered in a 50mm width.

To accompany this, the brackets and end caps come in polished brass, antiqued brass, chrome or black.

Bespoke Services

What else do we offer?

- Cover our poles with the client's own fabric or wall paper. The poles can be used in conjunction with any of the finials offered by Byron & Byron. Please note that some paper and fabrics are not suitable for this treatment, however please contact us for further details. The colour or fabric may be subject to a slight change in texture or tone due to the protective coating that we use.

- If you have a finish in mind, we will do our best to match it. All we need is British Standard, Dulux or RAL paint reference. If we can't match it, you can provide your own paint, which must be a water based emulsion paint. Please contact the office for further information.

- Insert track into our poles so that curtains can be Operated by pulley. The cording system is available for 45, 55, and 67mm diameter poles and, unless otherwise specified is supplied with a pulley mechanism as standard.

- Make finials and hold-backs to your specification. In addition to the vast range of finial designs we already have available, we also offer the facility for customised wood turning and carving. We can recreate almost any shape or style as per your specification no matter how complex or detailed

- Tailor brackets to your requirements. Made from wood, we can produce outstanding alternatives to our own brackets to satisfy the most discerning client.

Electric Powered Tracks

We now offer electric motorised power tracked poles. The poles are routed and inside the vessel we insert a track that is powered by electricity or battery. The choice is yours.

This allows for the curtains to be smoothly opened and closed at the touch of a button. This means the curtains are kept free from touch and therefore free from damage.

This cutting edge technology means that the fabric stays beautiful and clean for longer, and the curtains can be drawn and opened at the touch of one button. Aside from a sleek and contemporary look this is also the perfect solution for large windows with heavy drapes or curtains that are difficult to open due to their location. Practically aside this is a luxury that is now affordable.

Please contact the sales office for a quotation:
Email: sales@byronandbyron.com T. 020 8344 7979

Metamorph™

Unique curves for your bay windows

Metamorph™ is the first wooden curtain pole that follows the unique curves of your bay windows.

A carefully engineered system providing a silent, smooth, durable and decorative solution for most bay window configurations. Metamorph™ has enabled us to achieve the unachievable.

Available in 43, 55 and 67mm diameter and in all finishes.

There is a choice of brackets to suit your requirements. Both are adjustable and come in brass, nickel or a finish to complement your pole

Refer to the bay window measurement sheet for details of how to specify your particular requirements.

Services

Colour Chart

Please note that these finishes should be used as a guide only. Some difference in colour and texture may occur due to printing- please contact the sales office for a sample of your selected finish for best colour matching.

Acknowledgements

We want to express our sincere gratitude to all our wonderful clients who continue to make it possible for us to do what we love. Special thanks goes to those who took part in the creation of this catalogue, by providing beautiful imagery, styling shots and fabric to showcase our products.

We would also like to thank our hard-working staff made up of craftsmen, wood turners, finishers, painters and general staff in production. Huge thanks to all the office staff in all departments and to every member of staff for being part of the Byron & Byron story.

In particular thanks to **Besnik Miftaraj** and **Jurgita Vilimaviciene** for their dedication and hard work over the years.
